

*HRW's* 2008-09 Worldwide Hydro Directory provides an easy-to-use guide to companies providing key products and services to the worldwide hydro market. These products and services can help you do your job more effectively. Each company listed has been verified as active in the international hydro business marketplace.

*HRW's* 2008-09 Directory Company Listings provides company addresses, telephone and fax numbers, contact names, E-mail, and, for some companies, web sites. A cross-reference is included for companies with display advertising so you can refer to their ad for more information. Listings of these companies' services and products are indexed into more than 180 separate categories.

If your primary interest is North America, the annual *Hydro Review* Industry Sourcebook covers the North American marketplace. To purchase a copy for US\$20, contact HCI Publications, 410 Archibald Street, Kansas City, MO 64111 USA; Tel.: (1) 816 931-1311; Fax: (1) 816 931-2015; E-mail: [info@hcipub.com](mailto:info@hcipub.com); Internet: [www.hcipub.com](http://www.hcipub.com).

Both *HRW's* and *Hydro Review's* Directories are also available for research online. Simply visit [www.hcipub.com](http://www.hcipub.com) and select "Industry

**PROVIDING YOUR GENERATOR-MOTOR EXCITATION CONTROL SOLUTION IS WHAT REALLY MATTERS TO US**

**CUSTOM DESIGN**

New Excitation Control Systems, tailor made to your requirements and assembled in a cubicle complete with protection, monitoring and communication interfaces. Depending on your needs, these same solutions are also available assembled on a custom chassis that may be mounted directly in an existing control panel.

**SERVICE**

Through a worldwide Technical Support Network, Basler is always close by and available in any region for commissioning and service of excitation systems as well as to train personnel and help to optimize the operation of your generator.

**RELIABILITY**

With over 40 years of experience in the field of Generator & Synchronous Motor Control, today Basler Pioneer Digital Technology and we Guarantee to Deliver this High Level of Competence and Expertise that we have built over the years, to All our Customers.

**MAINTAINABILITY**

Owning a Basler system gives you the assurance to find replacement parts for the years to come of either the same product or its advanced version.

## Remove the Risk of Oil Leakages ...

In Hydro Power Plants and Water Level Regulating Systems using Tap Water Hydraulics.

Oil hydraulic installations can be upgraded to water hydraulic and still keep the existing cylinders.

With an environmental friendly antifreeze (containing FDA approved ingredients) the installation can be operated at temperatures below zero.

We offer a complete Tap Water Hydraulic Product Program.

Is your company listed in *HRW's*  
2008-2009 Worldwide Hydro Direc-  
tory? If not, visit the Internet at [www.hcpub.com/directory](http://www.hcpub.com/directory) and create a  
listing to be included in next year's  
edition.

# FUGESCO

# Seal Solutions!

- ✦ *Seals do not last under extreme conditions (high pressure, sand, etc.)?*
- ✦ *Our seals can withstand all extreme conditions and can take any dirty water.*

## We manufacture:

- Filtration systems
- Seal water control panels
- Air control panels (variable seal)
- Mechanical seals
- Mechanical & Electronic monitoring equipment
